The commission recently appointed by the county judge to condemn a right-of-way for the Brownsville Telephone Co. over the right-a-way of the St. Louis, Brownsville and Mexico Railway as far as Robstown and Lonsboro, met this morning and heard the argument of the counsel for the railway company, and of the telephone company, and took the matter under advisement, promising to deliver their opinion in a few days. This board consists of S. C. Tucker, S. J. Rowe and N. E. Rendall.

An indication of what the Brownsville country can do in the truck line in November is seen in the fine variety of vegetables now on sale daily at the city market. String beans, green corn radishes, eschallots, sweet peppers, turnips, green peas, squash, and cucumbers constitute the market gardeners' offerings at present. Just think what fancy prices these vegetables would bring at this season in the northern markets. The point to remember is that, if a small quantity of such garden delicacies can be produced here in November, a larger acreage could as easily be raised and hundreds of carloads of the same truck be shipped to Northern markets, bringing handsome returns to the lower Rio Grande planters.

L. N. Booth and wife of Dallas, were among the arrivals in town last night. Mr. Booth is an expert pharmacist and has accepted employment here in Willman's Pharmacy.

J. S. Graham, traveling auditor of the Gulf Coast Line, arrived in town last night and informs us that there were between fifty and seventy-five prospectors came in on last night's train.

K. Haze is a late comer from Michigan who has rented land at Olmito, and will engage in truck growing. Mr. Haze was in town yesterday buying supplies, and returned to Olmito today.

Misses Nellie and Dora Kimball came in last night from Raymondville and will spend some time here visiting friends until their new home, now in course of construction at Raymondville, shall be completed.

Norman G. Kittrell, jr., left yesterday for his home in Houston, after spending Saturday and Sunday as the guest of his cousin, Mrs. Fannie D. Putegnat. He took home with him Mrs. Putegnat's daughter, Louise, who will enter school at Houston.

B. H. Frazier of Raymondville came in Saturday night with the crowd of prospectors in the special cars "Isabel," "Raymondville," "Rice" and "Gulf Coast" and helped these gentlemen to see our attractions and country. Mr. Frazier is doing a great deal towards settling up and bringing to the front the Rio Grande country and deserves great credit therefor.

J. J. Lawson of South Boston, Va., was a prospector arriving last night, who failed to find a lodging at any of the hotels and came near having to sleep on the street, but finally found a resting place at a private house. Mr. Lawson left this morning, though he would have stayed longer had he been able to secure accommodations—all of which goes to prove our need of more hotels.

Emelio Champion, formerly a Brownsville boy, now of Huatusca, Mexico, came in Saturday night accompanied by his four sons on a visit to his relatives here. Emelio left here twenty two years ago and at that time spoke English fluently, as a native tongue, now he is unable to use it at all—says it has all fled. He is a successful coffee planter of Huatusca and owns considerable property there.

## Our Watershed

Coats are watershed in fact as well as in name. Rain has no more effect on them than water on a duck's back, because the material of which they are made is of the best and properly waterproofed.

You couldn't possibly buy a more useful, stylish garment than a Watershed. Truly an any-day coat. On clear, cool days it's a light weight overcoat. Only in wet weather do you know it be a Kuppenheimer Watershed.
